

REQUEST FOR PROPOSAL (RFP)

Enterprise IT Infrastructure Modernization & Managed Services

Reference No: NTC/RFP/2026/IT-114

Issuing Authority: National Telecommunications Corporation (NTC)

Submission Deadline: 28 July 2026, 17:00 PKT

Estimated Contract Value: PKR 85,000,000 to PKR 120,000,000

Contract Duration: 24 months

1. Background

The National Telecommunications Corporation invites sealed technical and financial proposals from qualified IT services firms for the modernization of its enterprise IT infrastructure and the provision of managed services across its head office and three regional offices. The selected vendor will be responsible for cloud migration, network redesign, security operations, and ongoing support over a 24-month period.

2. Scope of Work

The vendor shall deliver a complete infrastructure modernization program covering the migration of existing on-premise workloads to a public cloud environment, redesign of the corporate network, establishment of continuous security monitoring, and end-user support services.

3. Mandatory Compliance Requirements

Bidders MUST satisfy each of the following mandatory requirements. Failure to provide documented evidence against any mandatory clause will result in disqualification.

- 1 The vendor must hold a valid ISO 27001 Information Security Management System certification.
- 2 The vendor must demonstrate proven capability in migrating enterprise workloads to AWS or Microsoft Azure public cloud, covering at least 150 servers.
- 3 The vendor must provide 24x7 security operations centre (SOC) monitoring and incident response services.
- 4 The vendor must demonstrate a minimum of five (5) years of experience in enterprise network design and deployment.
- 5 The vendor must provide a disaster recovery and business continuity solution with a Recovery Time Objective (RTO) of less than 4 hours.
- 6 The vendor must supply certified project management resources holding a valid PMP certification.
- 7 The vendor must provide on-site end-user helpdesk support at offices in Karachi, Lahore, and Islamabad.
- 8 The vendor must hold a valid ISO 9001 Quality Management System certification.
- 9 The proposed solution must include a blockchain-based tamper-proof audit logging mechanism for all administrative actions.
- 10 The proposed solution must include an AI/ML-driven predictive analytics module for proactive capacity planning.
- 11 All data centre operations proposed must be carbon-neutral and certified under a recognised green-IT standard.

4. Evaluation Criteria

Technical capability and compliance: 50%. Relevant past experience and references: 30%. Financial proposal and value for money: 20%.

5. Submission Instructions

Proposals must be submitted in two separate sealed envelopes (technical and financial) before the stated deadline. Late submissions will not be entertained. Bidders must attach all certificates, case studies, and CVs as supporting evidence.
